Metstar Tile

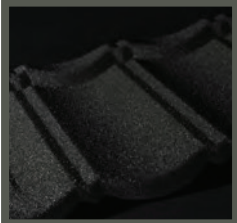

aka Tile FR, Rio

THE CLASSIC, POPULAR DESIGN

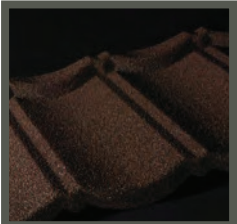

The Metstar Tile is our version of a very popular design in the stone coated metal roofing industry. It's design is a Spanish tile inspired wavy profile which was used on the first recorded stone coated metal roofing in the world back in 1950's New Zealand. Because of its classic elegant appearance and being a favorite among experienced System 1 installers the Tile profile continues to be very popular today.
